

General Living Space, Storage and Closets:

- All food should be kept in sealed plastic containers to avoid attracting pests.
- Do not leave dirty clothing on the floor.
- Place all clean clothes on hangers or in dresser drawers.
- Keep floors clean and debris free.
- Don't prop open doors or open windows without screens to reduce rodent access.

Trash Rooms, Recycling Areas:

- When disposing trash/garbage in trash room containers use plastic garbage bags to seal contents.
- Empty excess liquid from your beverage container prior to recycling it. Rinse out sugary contents.
- All food, such as pizza and garlic butter for example, should be removed from boxes prior to recycling.

In the Kitchen:

- Do not leave standing water on the kitchen counter top.
- Do not allow dirty dishes to sit out overnight.
- Keep floors free of food or food debris.
- Do not allow the trashcan to become full and overflowing. Remove contents daily.
- Do not allow open food containers to sit out and do not store food on the floor.
- Store all food items in sealed plastic containers to avoid attracting pests.
- Report any leaky faucets.
- Do not keep an excessive amount of loose plastic or paper bags.

In the Bathroom:

- Keep the tub and shower clean.
- Wipe up all water spills.
- Report leaky faucets to be fixed.
