The goal of the Financial Resources Working group is to find ways to fund the goals established by the other groups.

The group focused on identifying potential revenue sources. Each source will be prioritized based on the financial impact to the University and anticipated time for completion. A low impact revenue source was identified as taking two plus years to achieve, medium will be 18-24 months and high impact less than 18 months.

After considerable discussion, the group identified the following revenue goals for further exploration and discussion:

1. Increase percentage of students living in campus housing.
2. Tuition Rates Reflective of Quality of Education
3. Harlaxton Enrollment
4. Adult Education/Continuing Ed
5. Distance Learning
6. Summer Programs
7. Increase foreign student enrollment.

Next meeting will be Monday, November 15 at 8:00 a.m. Meeting adjourned.
