REPORT ON THE CAREERS OF THE CLASS OF 2024

Executive Summary

The following report describes the current career status of the class of 2024, which includes graduates from December 2023, May 2024, June 2024, and July 2024. *A postscript of this reporting period was added to the last page.*

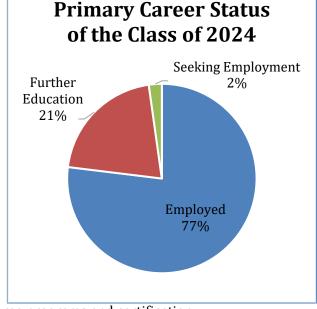

Career information was available for 97% of the 482 graduates. The data were gathered from the following sources:

- Department chairs
- National Student Clearinghouse
- Survey of Graduating Students
- Misc.-Students, employers, staff, parents and online

The **career outcome rate*** - employment or further education – was 98%.

*This rate excludes people in the "Other" category; graduates in this category were not seeking employment or pursuing further education during the data collection period.

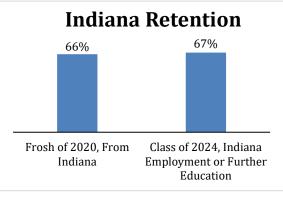

The **median salary** of reporting graduates employed full-time was \$55,000.

20% of graduates pursued further education, including degree programs and certification programs. **Graduate school enrollment** comprised 18% of responding graduates. An additional 25% of graduates not currently in further education indicated the intention to **pursue graduate school** within the next three years.

Outreach messaging was sent to 239 or 49.6% of graduates offering additional career assistance from the **Center for Career Development**.

Indiana retention of graduates included 65% of employed graduates and 72% of graduates in further education. When entering UE in fall 2020, 66% of this class was from Indiana.

Method

Career data were collected from multiple sources and compiled for this report according to the National Association of Colleges and Employers' standards and protocols for college graduate first destination surveys. The most recent response from the graduate or the academic department was used in the analysis. Some graduates seeking further education were also employed and a determination was made based on full-time status.

Data Sources	
Survey of Graduating Students Responses = 269 Alumni Surveys Responses = 0	Brief online survey distributed to students via email beginning in the spring semester and via QR code during commencement central and commencement ceremonies. Asked for updated contact, job, and graduate school information. Also allowed student to request help from the Center for Career Development. With the graduation survey moving from a paper to an online format, a separate survey is no longer used. Alumni are sent the link to the Online Survey of Graduating Students.
National Student Clearinghouse Responses = 22	National database of students enrolled at over 3,300 U.S. institutions. Used to find graduate school enrollment of alumni/ae.
Academic Departments Responses = 39	Once graduates' career data were gathered and compiled from the above sources, the data were sent out to the academic departments. Department chairs were asked to review and update the data on their departments' graduates.
Miscellaneous Responses = 131	Additional data sources included students, employers, staff, parents, and online.
